

Grooming Area:

The grooming area, located in Barns 1 & 2, will be available for load-in at 4pm on Sunday, the 25th.

Exhibitors can place their own locks on the stalls for the duration of the show, but they must be removed Saturday afternoon.

Rosters will be posted on both sides of the barns and each stall will have an index card identifying the occupant.

Unidentified occupants will be asked to move to their own stall or to buy a stall. Equipment will be removed to allow correct occupants to load in.

There will be a number posted in the aisles to call in case of power failure. Please call that person first, and if necessary, locate Maria Franklin or grounds chair.

There is water available in the barns, but you cannot bathe dogs in the aisles. There will be 5 booster baths in the bathing area, as well as Isle of Dogs shampoo and conditioner to use.
